LEDGEHILL PROGRAMS & APPROACH

We offer 45, 60 or 90-day core programs and a 30-day condensed program. They involve holistic behavioral therapies that teach clients how to incorporate the robust 12-step program into their daily lives. Clients are provided with healthy meals, and enjoy their own beautifully-appointed residential rooms. We are located in Lawrencetown, Nova Scotia. Our 110-acre farmland property is private and quiet. The staff has immense experience with addiction – both professionally and personally. You will meet people who have gone through similar struggles as part of your journey to recovery.

DO THE PROGRAMS WORK?

Yes.

But you must understand that overcoming addiction is a journey that will last a lifetime. Our mission is to equip our clients with the tools, mindset, motivation and ability to embark on this journey. Success is different for every person, for every family. It could be as simple as making this first phone call. It could be something more specific, like staying clean for five years. Generally, success is gauged by this question: has a positive difference been made between admission and discharge? As such, we rely on feedback from our clients. We've included some testimonials below and many more can be found online at **www.ledgehill.com**. We hope you take the time to read them.
